-

How to create a dark-themed PDF resume with this content:

1. Using Google Docs:

- Create a new doc.
- Set page background to dark gray or black via "File > Page setup" (or use a black shape covering the page).
- Use white or gold/yellow font color (#FFCC00) for headings and text.
- Paste this content and adjust fonts for a clean look (try fonts like "Montserrat," "Roboto," or "Helvetica").
- Export as PDF.

2. Using Canva:

- Search for “Resume” templates.
- Pick a dark theme template or customize colors.
- Paste and format the content.
- Download as PDF.

3. Using Microsoft Word:

- Change page color to black or dark gray.
- Change font color to white or gold/yellow.
- Paste content and style headings.
- Export as PDF.

If you want, I can also help you with a ready-to-copy CSS + HTML template styled for a dark-themed resume so you can view it in a browser and print to PDF. Just say the word!
